

# Chungmok Lee, Ph.D.

Dept. of Industrial & Management Engineering,  
Hankuk University of Foreign Studies,  
South Korea

Phone: (82)-10-5533-9625  
Email: chungmok@hufs.ac.kr  
Homepage: <http://chungmoklee.github.io>

## Current Position

**Associate Professor**, Dept. of Industrial & Management Engineering, Hankuk University of Foreign Studies, 3/2019 – present

**Assistant Professor**, Dept. of Industrial & Management Engineering, Hankuk University of Foreign Studies, 3/2015 – 2/2019

## Professional Experience

**Research Staff Member**, IBM Research – Ireland, Smart City Research Center, 6/2013 – 2/2015

**Senior Researcher**, Electronics and Telecommunications Research Institute (ETRI), 7/2011 – 6/2013

**Invited Professor**, Korea Advanced Institute of Science and Technology, 12/2010 – 6/2011

**Visiting Scholar**, Rutgers University, New Jersey, United States, Research optimization theory and applications, 2009–2010.

**SW development team manager**, Intellicube, Seoul, Korea, Developing logistics optimization package, 2002–2004.

**SW development team manager**, Koino, Daejeon, Korea, Developing internet based collaboration system, 2000–2002.

## Education

**Korea Advanced Institute of Science and Technology**, Industrial Engineering(Optimization), Ph.D., 9/2004 – 8/2009

Thesis : Robust optimization models and algorithms for the problems in telecommunications and logistics.

Brief summary : Several optimization problems in the telecommunication network and logistics subject to data uncertainty are considered. To handle the uncertainty of data efficiently, the robust optimization methodology is adopted, where the goal is to obtain a solution which is feasible for all possible realizations of input data. Formulations of the problems and exact solution algorithms for the robust solution are proposed.

**Korea University**, Physics(Quantum Optics), M.S., 3/1997 – 8/1999

Thesis : Research on the optical pumping of the rubidium low velocity intense source.

**Korea University**, Physics, B.S., 3/1993 – 2/1997

## Research Interests

**Theory and Methodologies of Discrete Optimization :**

Linear Programming, Integer Programming, Polyhedral Theory, Cutting Plane Theory, Graph Theory and Network Programming, Branch-and-cut and Branch-and-price approaches to NP-hard problems, Robust Optimization

### Applications :

Telecommunication Network Design, Logistics Planning, Supply Chain Management, Scheduling, Data Mining, etc.

## Research Papers

Table: Statistics of Research Areas

Research Area	Number of papers	Research Area	Number of papers
Telecommunication	5	Logistics	6
Data Mining	5	Theory	2
Health Care	1	Robust Optimization	5
Finance	1	Social Networks	1
Stochastic	3	Military	1

### Published (or Accepted) Journal Papers

- [1] **Chungmok Lee**. An exact algorithm for the electric-vehicle routing problem with nonlinear charging time. To appear in *Journal of the Operational Research Society*. **Logistics**
- [2] Seulgi Joung, Jaeyoong Lim, **Chungmok Lee**, Jongyoon Shin, Ikkyun Jung, and Sungsoo Park. A linear programming based heuristic algorithm for bandwidth packing problem with scheduling. *Journal of the Operational Research Society*, 71(2):250–263, 2020. **Telecommunication**
- [3] Yerin Kim, Daemook Kang, Mingoo Jeon, and **Chungmok Lee**. GAN-MP hybrid heuristic algorithm for non-convex portfolio optimization problem. *Engineering Economist*, 64(3):196–226, 2019. **Finance**  
**Data Mining**
- [4] **Chungmok Lee**, Donghyun Cho, and Sungsoo Park. A combinatorial benders decomposition algorithm for the directed multiflow network diversion problem. *Military Operations Research*, 24(1):23–40, 2019.
- [5] Jiyoung Choi, **Chungmok Lee**, and Sungsoo Park. Dantzig-Wolfe decomposition approach to the vehicle assignment problem with demand uncertainty in a hybrid hub-and-spoke network. *Annals of Operations Research*, 264(1):57–87, 2018. **Logistics** **Stochastic**
- [6] **Chungmok Lee** and Jinil Han. Benders-and-price approach for electric vehicle charging station location problem under probabilistic travel range. *Transportation Research Part B: Methodological*, 106:130–152, 2017. **Logistics** **Stochastic**
- [7] Chun-An Chou, Tibérius O Bonates, **Chungmok Lee**, and Wanpracha Art Chaovalitwongse. Multi-pattern generation framework for logical analysis of data. *Annals of Operations Research*, 249(1):329–349, 2017. **Data Mining**
- [8] Dohyun Kim, **Chungmok Lee**, Sangheum Hwang, and Myong K Jeong. A robust support vector regression with a linear-log concave loss function. *Journal of the Operational Research Society*, 67(5):735–742, 2016.
- [9] Jinil Han, Kyungsik Lee, **Chungmok Lee**, Ki-Seok Choi, and Sungsoo Park. Robust optimization approach for a chance-constrained binary knapsack problem. *Mathematical Programming*, 157(1):277–296, 2016. **Robust Optimization** **Theory**
- [10] **Chungmok Lee**, Minh Pham, Norman Kim, MK Jeong, Dennis Lin, and Wanpracha Chavalitwongse. A network structural approach to the link prediction problem. *INFORMS Journal on Computing*, 27(2):249–267, 2015. **Data Mining** **Social Networks**

- [11] B Kawas, A Koc, M Laumanns, **Chungmok Lee**, R Marinescu, M Mevissen, N Taheri, SA van den Heever, and R Verago. Unified framework and toolkit for commerce optimization under uncertainty. *IBM Journal of Research and Development*, 58(5/6):12–1, 2014.
- [12] Kyoungmi Hwang, Kyungsik Lee, **Chungmok Lee**, and Sungsoo Park. Multi-class classification using a signomial function. *Journal of Operational Research Society*, 2014. Data Mining
- [13] Jinil Han, **Chungmok Lee**, and Sungsoo Park. A robust scenario approach for the vehicle routing problem with uncertain travel times. *Transportation Science*, 48(3):373–390, 2014. Robust Optimization  
Logistics
- [14] **Chungmok Lee**, Kyungsik Lee, and Sungsoo Park. Benders decomposition approach for the robust network design problem with flow bifurcations. *Networks*, 62(1):1–16, 2013. Robust Optimization  
Telecommunication
- [15] Jinil Han, Kyungsik Lee, **Chungmok Lee**, and Sungsoo Park. Exact algorithms for a bandwidth packing problem with queueing delay guarantees. *INFORMS Journal on Computing*, 25(3):583–596, 2013. Telecommunication
- [16] Zhe Liang, **Chungmok Lee**, and Wanpracha Chavalitwongse. Mathematical programming approaches for dual multicast routing problem with multilayer risk constraints. *Annals of Operations Research*, 203(1):101–118, 2013. Telecommunication
- [17] **Chungmok Lee**, Kyungsik Lee, and Sungsoo Park. Robust vehicle routing problem with deadlines and travel time/demand uncertainty. *Journal of Operational Research Society*, 63(9):1294–1306, 2012. Robust Optimization Logistics
- [18] **Chungmok Lee**, Kyungsik Lee, Kyungchul Park, and Sungsoo Park. Branch-and-price-and-cut approach for the robust network design problem without flow bifurcations. *Operations Research*, 60(3):604–610, 2012. Robust Optimization Telecommunication
- [19] **Chungmok Lee** and Sungsoo Park. Chebyshev center based column generation. *Discrete Applied Mathematics*, 159(18):2251–2265, 2011. Theory
- [20] Lee Yongsik, **Chungmok Lee**, and Sungsoo Park. A branch-and-price algorithm for the vehicle routing problem with time dependent travel times. *Journal of the Korean Institute of Industrial Engineering*, 37(2):144–152, 2011. Logistics
- [21] Young-Seon Jeong, Norman Kim, **Chungmok Lee**, and Kyungsik Lee. Remote health monitoring of parkinson’s disease severity using signomial regression model. *IE Interface*, 23(4):365–371, 2010. Health Care Data Mining
- [22] Chang Yong Park, Heeso Noh, **Chungmok Lee**, and Donghyun Cho. Measurement of the zeeman-like AC stark shift. *Physical Review A*, 63(3):032512, 2001.

## Patents

- [1] Randall Lee Cogill, Olivier Gallay, **Chungmok Lee**, Zubair Nabi, Martin Rufli, Robert Shorten, Tigran Tchakian, Rudi Verago, Fabian Roger Wirth, Jia Y Yu, and others. Distributed parking space detection, characterization, advertisement, and enforcement, 2017. US Patent 9,601,018.
- [2] Bissan Ghaddar, Marco Laumanns, **Chungmok Lee**, Martin Mevissen, Nicole Taheri, Susara Van Den Heever, and Rudi Verago. Solving an optimization model using automatically generated formulations in a parallel and collaborative method, 2017. US Patent 9,659,253.
- [3] Randall Lee Cogill, Olivier Gallay, **Chungmok Lee**, Zubair Nabi, Martin M Rufli, Robert Shorten, Tigran T Tchakian, Rudi Verago, Fabian Roger Wirth, and Sergiy Zhuk. Vehicle and local area security system communications, 2017. US Patent 9,598,050.

- [4] Randall L Cogill, Olivier Gallay, **Chungmok Lee**, Zubair Nabi, Martin Rufli, Robert Shorten, Tigran Tchakian, Rudi Verago, Fabian R Wirth, Sergiy Zhuk, and International Business Machines Corporation. System and method for air-pollutant source-localization using parked motor vehicles, 2017. US Patent 9,719,972.

### Conferences and Seminars

- [1] **Chungmok Lee**. A novel branch-and-price approach for the electric-vehicle routing problem. In *LOGMS 2017*, 2017.
- [2] Minjae Park and **Chungmok Lee**. Design of customer center network for warranty services. In *EURO 2016*, 2016.
- [3] **Chungmok Lee**. Benders-and-price approach for electric vehicle charging location problem under uncertainty. In *EURO 2016*, 2016.
- [4] **Chungmok Lee**. Electric vehicle charging station locations under range uncertainty. In *INFORMS International 2016*, 2016.
- [5] **Chungmok Lee** and Rahul Nair. Transit network design problem with uncertain demands. In *INFORMS 2014*, 2014.
- [6] **Chungmok Lee**, Nicole Taheri, and Martin Mevissen. An extreme-case scenario approach for data uncertainty. In *IFORS 2014*, 2014.
- [7] Susara van den Heever, Ban Kawas, Marco Laumanns, Radu Marinescu, **Chungmok Lee**, Nicole Taheri, Martin Mevissen, Rudi Verago, and Ali Koc. A decision support system for optimization in the face of uncertainty. In *IFORS 2014*, 2014.
- [8] **Chungmok Lee**, Minh Pham, Norman Kim, Myong K Jeong, Dennis KJ Lin, and Wanpracha Art Chavalitwongse. A novel link prediction approach for scale-free networks. In *Proceedings of the companion publication of the 23rd international conference on World wide web companion*, pages 1333–1338. International World Wide Web Conferences Steering Committee, 2014.
- [9] **Chungmok Lee**. A novel link prediction approach for scale-free networks. In *LSNA 2014*, 2014.
- [10] **Chungmok Lee**. Mathematical programming approaches for data-mining applications. In *INRIA RealOpt Invited Seminar*, 2013.
- [11] Jinil Han, **Chungmok Lee**, Kyungsik Lee, and Sungsoo Park. Exact solutions for a bandwidth packing problem with queueing delay guarantees. In *VOCAL 2010*, 2010.
- [12] Lee Yongsik, **Chungmok Lee**, and Sungsoo Park. A branch-and-price algorithm for the vehicle routing problem with time dependent travel time. In *KIIE 2010/Fall*, 2010.
- [13] **Chungmok Lee**, Minh Pham, Norman Kim, and Wanpracha Chavalitwongse. A network structural approach on the link prediction problem. In *INFORMS 2010*, 2010.
- [14] **Chungmok Lee**, Zhe Liang, and Wanpracha Chavalitwongse. A branch-and-check-and-bound algorithm for redundant multicast routing problem with shared risk link group. In *INFORMS 2010*, 2010.
- [15] Norman Kim, **Chungmok Lee**, Sangheum Hwang, MK Jeong, and Bong-Jin Yum. A robust kernel-based regression. In *INFORMS 2010*, 2010.
- [16] **Chungmok Lee**, Kyungsik Lee, Kyungchul Park, and Sungsoo Park. Branch-and-price-and-cut approach for the robust network design without flow bifurcations. In *RUTCOR BrownBag 2010 Spring*, 2010.
- [17] **Chungmok Lee** and Sungsoo Park. Chebyshev center based column generation. In *ISMP 2009*, 2009.
- [18] **Chungmok Lee** and Sungsoo Park. A new acceleration method for column generation. In *KIIE 2009/Fall*, 2009.
- [19] **Chungmok Lee**, Kyungsik Lee, Kyungchul Park, and Sungsoo Park. Algorithm for the robust network design problem with single path routing. In *KIIE 2009/Spring*, 2009.

- [20] **Chungmok Lee**, Kyungsik Lee, Kyunchul Park, and Sungsoo Park. An optimization algorithm for the path selection problem under demand uncertainty. In *KIIE 2008/Spring*, 2008.

## Industrial Projects Experience

**Long-term Strategic Planning of Korea Postal Infrastructure**, 2011, Korea Post, Seoul, Korea : Building Long-term Strategic Planning of Domestic Transportation Network

**Algorithm Framework for Robust Optimization Problems using Decomposition**, 2009, National Research Foundation, Daejeon, Korea : Research of Robust Optimization Approach using Decomposition Methods

**Optimization Algorithms for the Network Design Problem under Demand Uncertainty**, 2008, National Research Foundation, Daejeon, Korea : Research of New Optimization Methodology for Network Design Problem with Demand Uncertainty

**Train Car Allocation and Routing Optimization Engine Development**, 2008, KORAIL, Daejeon, Korea : Design and Developing Train Car Operation Optimization Engine

**Developing nanoRTS system**, 2008, LG Display, Seoul, Korea : Design and Developing LCD Manufacturing Scheduling Engine

**Process Equipment Allocation System Development**, 2007, Samsung Electronics, Hwasung, Korea : Design and Developing Semiconductor Manufacturing Equipment Job Allocation Optimization Engine

**GIS/GPS based Logistic Management System**, 2007, IntelliCube, Seoul, Korea : Design and Developing Logistic Optimization Engine

**K-POWER IDSS Optimization Engine Development**, 2006, K-Power, Seoul, Korea : Design and Developing Power Plant Generation Planning Optimization Engine

**Real Time Scheduler for Semiconductor Manufacturing**, 2006, Hynix, Seoul, Korea : Design and Developing Semiconductor Manufacturing Scheduler

## Honors and Awards

Young Management Scientist Award, Korean Operations Management Science Society, 2014

Research Division Award, IBM, 2014

Beak-Am Technology Award, Korean Institute of Industrial Engineers, 2011.

## IT Skills

I am very fluent in using :

C, C++, C#, Python, .NET, Java, Matlab, R, Fortran, EJB, SQL, Cplex, XPress-MP,  $\text{\LaTeX}$
